

Advancing Long Term Care Nursing

Become part of the dynamic movement
to create a new culture of LTC

The American Association for Long Term Care Nursing is not your typical membership group. It is an active community of caring individuals achieving common goals for all nursing staff: nursing executives, director of nursing, assistant director of nursing, LPNs, RNs, staff development directors, nursing assistants, nurse assessment coordinators and nurse practitioners. Programs of education and advocacy provide avenues for advancements in knowledge, understanding, and respect for Long Term Care Nursing. The programs and services of the AALTCN are an essential part of a fellowship designed for your personal growth and professional improvement.
